

MiddleMan

Yacht Provisioning for Everyone – All in One App

WHO WE ARE

MiddleMan is here to make yacht provisioning simple.

We don't sell products – we're a platform that connects buyers (like chefs, crew, and yacht managers) with trusted suppliers of fresh, high-quality goods.

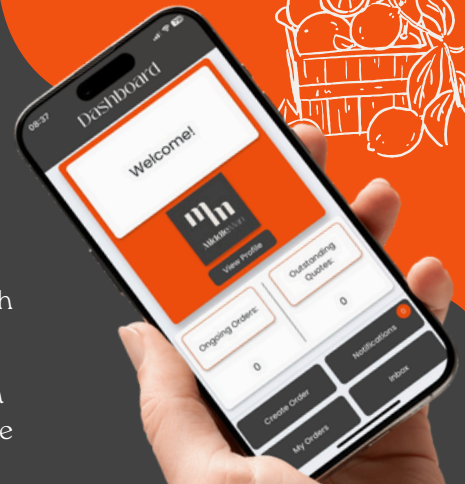

WHAT WE DO

-  Help buyers find the right local suppliers.
-  Help suppliers reach more yacht clients.
-  Save you time by coordinating and communicating clearly.
-  Track and manage orders from start to finish.

HOW IT WORKS

- 1 Download the MiddleMan app and sign up as either a buyer or supplier.
- 2 Buyers upload their provisioning list with everything they need.
- 3 Suppliers view the request and submit a quote - either for the full order or just the items they can provide.
- 4 If the buyer accepts the quote, the order is confirmed!
- 5 Use the in-app chat to coordinate delivery details, payment, and any special requests directly between buyer and supplier.
